ABOUT THE ART + ENVIRONMENTAL EDUCATION DAY CAMP PROGRAM

Partners Mariposa County Arts Council (Arts Council) and Sierra Foothill Conservancy (SFC) have partnered to provide an Art + Environmental Education Summer Day Camp, supported by the Mariposa County Unified School District's and Sierra Foothill Charter School's Expanded Learning Opportunity program. Tailored for TK-6th grade students in Mariposa County, this place-based, outdoor education program is a collaborative effort centering a rigorous, CA State Standards aligned integrated curriculum led by naturalists, scientists, Indigenous culture keepers, and teaching artists. It aims to provide a safe environment for students to explore and celebrate the natural landscapes integral to their community.

Based at Mariposa Elementary School, the Day Camp will include field trips to the Mariposa Creek Parkway, Sierra Foothill Conservancy's Stookey Preserve (Lushmeadows), and Wahhoga Village in Yosemite National Park. Each site offers unique contextual learning experiences, fostering connections to local landscapes through scientific, cultural, and artistic lenses.

Signature elements of this program include the following pedagogical approaches which should be present in both written curriculum and one of the ground teaching practices:

- **Place-based education:** Grounded in utilizing local surroundings as a springboard for teaching, this approach cultivates contextual understanding, experiential learning, environmental consciousness, cultural immersion,

interdisciplinary connections, community involvement, and personalized learning encounters.

- **Arts integration:** Thoughtfully merging academic subjects with creative processes, arts integration sparks creativity, critical thinking, diverse intelligences, active engagement, collaborative spirit, emotional intelligence, cultural sensitivity, and memory retention.
- **Inquiry-based learning:** Anchored in questioning, exploration, and newfound comprehension, inquiry-based learning nurtures active participation, critical thinking prowess, curiosity, intrinsic motivation, ownership of learning, real-world relevance, collaboration, communication, and lifelong learning competencies.

Furthermore, the Arts Council and Sierra Foothill Conservancy have adopted the California Department of Education and the Afterschool Network's [Quality Standards for Expanded Learning in California](#) and the five [Learning in After School and Summer Principles](#), which are as follows:

Quality Standards for Expanded Learning in California

Point of Services Quality Standards

- **Safe and Supportive Environment** - The program provides a safe and nurturing environment that supports the developmental, social-emotional and physical needs of all students.
- **Active and Engaged Learning** - Program design and activities reflect active, meaningful and engaging learning methods that promote collaboration and expand student horizons.
- **Skill Building** - The program maintains high expectations for all students, intentionally links program goals and curricula with 21st-century skills and provides activities to help students achieve mastery.
- **Youth Voice and Leadership** - The program provides and supports intentional opportunities for students to play a meaningful role in program design and implementation, and provides ongoing access to authentic leadership roles.
- **Healthy Choices and Behaviors** - The program promotes student well-being through opportunities to learn about and practice balanced nutrition, physical activity and other healthy choices in an environment that supports a healthy lifestyle.

M Mariposa Arts Council

- **Diversity, Access and Equity** - The program creates an environment in which students experience values that embrace diversity and equity regardless of race, color, religion, sex, age, income level, national origin, physical ability, sexual orientation and/or gender identity and expression.

Programmatic Quality Standards

- **Quality Staff** - The program recruits and retains high quality staff and volunteers who are focused on creating a positive learning environment, and provides ongoing professional development based on assessed staff needs.
- **Clear Vision, Mission and Purpose** - The program has a clearly defined vision, mission, goals, and measurable outcomes that reflect broad stakeholder input and drive program design, implementation and improvement.
- **Collaborative Partnerships** - The program intentionally builds and supports collaborative relationships among internal and external stakeholders, including families, schools and community, to achieve program goals.
- **Continuous Quality Improvement** - The program uses data from multiple sources to assess its strengths and weaknesses in order to continuously improve program design, outcomes and impact.
- **Program Management** - The program has sound fiscal and administrative practices supported by well-defined and documented policies and procedures that meet grant requirements.
- **Sustainability** - The program builds enduring partnerships with the community and secures commitments for in-kind and monetary contributions.

Five Principles for Afterschool and Summer Learning

- **Learning that is Active** - Learning and memory recall of new knowledge is strengthened through different exposures – seeing, hearing, touching, and doing. Afterschool learning should be the result of activities that involve young people in “doing” – activities that allow them to be physically active, stimulate their innate curiosity, and that are hands-on and project-based.
- **Learning that is Collaborative** - Afterschool and summer programs should help young people build team skills that include listening to others, supporting group learning goals, and resolving differences and conflicts. Collaborative learning happens when learners engage in a common task where each individual depends on and is accountable to each other.

M Mariposa Arts Council

- **Learning that is Meaningful** - Learning is meaningful when youth have some ownership over the learning topic, the means to assess their own progress, and when the learning is relevant to their own interests, experiences, and the real world in which they live. Community and cultural relevance is important to all youth.
- **Learning that Supports Mastery** - If young people are to learn the importance and joy of mastery, they need the opportunity to learn and practice a full sequence of skills that will allow them to become “really good at something.” Afterschool and summer activities should be explicitly sequenced and designed to promote the layering of new skills.
- **Learning that Expands Horizons** - Afterschool and summer programs should provide learning opportunities that take youth beyond their current experience and expand their horizons. They should go beyond the walls of their facilities to increase young people’s knowledge of their surrounding neighborhood and the larger global community.
